Hello,

I am a frequent guest of your webpage and have got a lot of inspiration, help and knowledge from it. Therefore I would like to send you a little holiday greeting - my last work, a stove white as Christmas itself, like a present - bringing joy to the grown-ups as well as kids, like a blessing - bringing warmth to the bodies and hearts of the dwellers of the house at this extremely cold time.

I also have a blog where I talk about my work, but I also talk about different stoves and ovens in the world, including the ones on your webpage. This is the address of my blog - <http://tulepesa.wordpress.com>. My webpage is [www.tulepesa.ee](http://www.tulepesa.ee).

With best greetings,

Peep
