Hello Norbert,

This may be something of interest for MHA News.

Remember Onni Ovaskainen, the young fellow from Tulikivi's R&D who came to Wildacres in 2017 ?

His mum runs a B&B and country kitchen together with one of his sisters in Northern Karelia. She does her baking in this oven and all ingredients are locally sourced. We had dinner there in June when I spent a few days at the factory.

The pics are in actual size so that you can edit them if needed.

See you next week!

Boris
